## **REGISTRATION OPENS FOR THE TRANSITALIA MARATHON 2022**

Less than a week to go until the opening of registration for the eighth edition of the Transitalia Marathon, which will start in Rimini on 26 September and arrive in Teramo on 29 September after crossing most of central Italy.

The date to mark on the calendar is 1 February at 12.30, when it will be possible to register for the event, which today represents the greatest expression of international motorcycling adventurism on the Italian scene.

### **WHAT'S NEW IN THE TRANSITALIA MARATHON 2022**

The event organised by Mirco Urbinati in the 2022 edition, in addition to the journey to discover new panoramas and itineraries for participants, will see two important new features.

First of all, the presence of a new category, the C1 Concept, which stems from Mirco Urbinati's desire to implement the tourist character of the event and provides a track that develops entirely on secondary asphalt with the entrance to the most characteristic villages present within the itinerary. The C1 Concept is designed to allow the participant to enjoy the event with particular attention to the tourist and gastronomic peculiarities that the territory is able to offer.

The second innovation is the start of the event from the Village of MTI Expo, a three-day event entirely dedicated to motorcycling that will take place from 23 to 25 September in Piazzale Fellini in Rimini and that will see the presence of leading partner companies in the sector, local excellences that will offer enthusiasts and the curious typical local products and a rich calendar of events, bike tests and demo raids.

### **THE NUMBERS OF THE 2022 EDITION**

450 places are available for the eighth edition (350 + 100 for the NEW Concept C1 category), 6 regions will be crossed (Emilia-Romagna, Tuscany, Umbria, Marche, Lazio and Abruzzo), 4 stages and over 1000 km to ride for an event that in past years has closed registrations a few minutes after the opening thanks to the enthusiasm of many groups of motorcyclists from all over the world.
